Why Ace Lightning?

Ace has been building Integrated Desktop All-In-One units for years, and the largest member of the Ace Lightning 400 family is the 470 series. This unit offers a customizable platform enabling the selection of industry standard solutions to provide the end user with an endless array of choices, focused on performance, serviceability, long life, and being able to take advantage of the latest technology. **Available in Silver or Black (Silver pictured)**

Space Saver Extraordinaire!

The Ace Lightning 470 All-in-One PC features an ergonomic low profile design that looks great and works great on any desktop. The 27" LCD display supports the full range of Intel or AMD processors, and with Microsoft® Windows® 7 gives you all the computing power you need. This compact, but versatile PC can operate independently, hardwired into a LAN network or work wirelessly in any 802.11b/g/n WiFi network. Easily transfer and share files, photos and more through the multiple USB 2.0 ports, and the unit features a slot loading DVD Burner (BluRay optional) for a truly ergonomic and modern design. It's the smart solution for call centers, libraries, school computer labs, home desktops and anywhere else space is at a premium.

Save Power!

The 470 features a customized 300W energy efficient power supply that handles both the computer and the LCD, dramatically lowering your overall power consumption, compared with maintaining two separate units, and you also need only one cord / one available outlet!

All-In-One Industry Applications:

- Financials
- Healthcare
- Education
- Government
- Point of Sale
- Factory Floors
- Call Centers
- Help Desk
- Libraries

Customizable for Kiosk Applications!

- Hotels
- Restaurants
- Movie Theatres
- Museums
- Information Desks

The Rugged All Aluminum Chassis will outlast the competition with their plastic housings. The Lightning 470 is built to last, and meets all Federal Government Requirements for EPEAT / Energy Star / TAA.
