

Most Powerful High-End Media Server Unveiled by Ace Computers at AXPONA 2018

Thursday, April 5th 2018, 12:09 pm CDT

Ace Computers will be showcasing the most powerful and quietest high-end media server on the market today from Expo Hall Booth 1615 at the 2018 AXPONA event.

CHICAGO, UNITED STATES, April 5, 2018 /- Ace Computers will be showcasing the most powerful, flexible and quietest high-end media server on the market today from Expo Hall Booth 1615 at the 2018 AXPONA event. The event will be held April 13 15 at the Renaissance Schaumburg Hotel and Convention Center, Schaumburg, Ill.

Ace Computers' MMS A/V features:

- A high-end black or silver brushed aluminum finish chassis with an ultra-low noise external power supply
- A silent passive cooling system
- Dolby-certified audio with 115dB SNR HD audio
- ESS Sabre DAC on the motherboard, which supports dual gigabit NICs
- 121 dB SN ratio on the board
- Intel I7-8700 CPU for highest performance and best audio
- A 500GB M.2 SSD drive and the ability to accommodate up to two 1TB M.3 SSD drives
- Quad Intel gigabit gaming-quality NICs and optional Wi-GIG tri- band WIFI card
- Two simultaneous displays, with two ports capable of 4K (HDMI/DP)
- An array of options.

Ace Computers CEO John Samborski said, "This media server delivers exceptional performance anywhere there is a need for outstanding audio/visual quality. We are looking forward to impressing everyone at AXPONA with this server's capabilities."

Now in its 9th year, AXPONA (Audio Expo North America) draws audiophiles, music lovers, musicians and seasoned audio experts by offering the latest technology from stereo systems, home audio speakers, headphones, turntables, amplifiers and more. The show will feature 400 exhibitors and offers attendees the opportunity to experience the newest high-end audio products. Featuring more than 150 interactive listening rooms, an expanded Exhibit Hall, Master Class Theater, live concerts, seminars and much more, AXPONA 2018 will encompass nine floors of the hotel.
